Hi Gary,

As a follow up to our conversation, I'm attaching pictures from our Laurel Canyon site over the Pacoima Wash. There we have people who are undermining our bridges and have created living spaces underneath. This is a public safety hazard that people are trespassing in these areas and a water quality issue when the trash from these encampments go into the County's Flood Control channel.

I've reached out to Sanitation as well in terms of our cleanup resources, but I'm seeking your

help to identify whether we have the tools we need to evict people living under our City infrastructure. If we do, what does that process look like among the City and in partnership with other agencies? If we don't, do we need an ordinance or something of the like to increase our regulation of this trespassing?

Thanks for your feedback on this. I've also had the CLA I'm working with reach out to Shirley Lau for her input.

Best,  
Felicia
